

Biggest Frontend and AI Trends

Zep AI, Pinterest MCP, Google AI agents, and OpenClaw are shaping the future of frontend architecture, AI agents, and workflows.

Frontend Architecture Trends

Cloudflare Dynamic Workers, TensorFlow.js, and Web Workers are changing the game for frontend performance and rendering.

AI Agents Reshaping UI Work

OpenClaw, Hermes Agent, and Pinterest MCP are revolutionizing the way we build AI-powered workflows and interfaces.

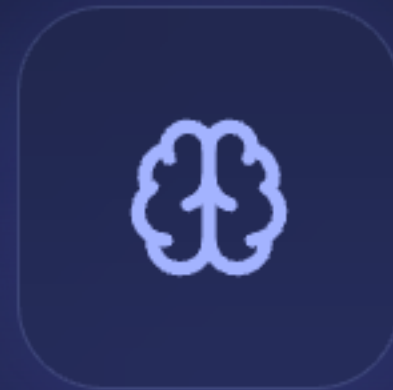

Emerging Developer Tooling

GitHub Copilot, JetBrains AI Agent Builder, and Ollama's MLX framework are changing the way developers build and deploy applications.

What's Next?

Edge runtimes, server rendering, and persistent AI agents will be the key to unlocking better performance and scalability.
